

## NEET-SYSTEM PROJECT NEWSLETTER #4

### WELCOME!

After 2 years, the Erasmus+ NEET SYSTEM project is completed and all project activities and results are developed!

During this 2 years of implementation, project partners have put all their experience and knowledge in developing a set of educational materials to support and attract young people who had previous negative educational experience, or early school-leavers who have failed to complete their formal education.

- 32 online educational escape room resources
- In service training programme and handbook
- E-learning portal
- Policy paper

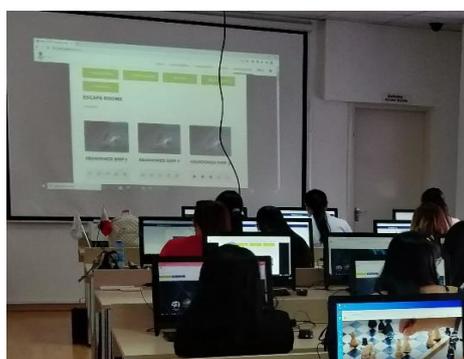

**All project results are finalised, translated in all partner languages and available on the website of the project.**

Project partners had chance to present the training materials to other education providers in their local area and to support them in the process of testing and piloting the online escape room exercises!

### ESCAPE ROOM CHALLENGE WORKSHOPS

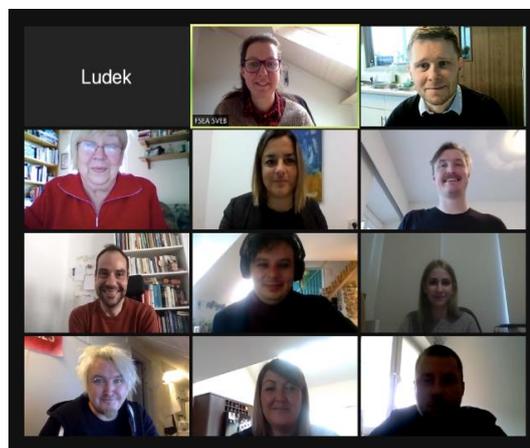

were planned and held as multiplier events in each partner country in the period from March to November 2020. The aim of this event was to present the online escape room resources and encourage young people neither in education, employment nor training to engage with the resources developed.

## FINAL CONFERENCE

It was planned to be organized in Germany and hosted by project coordinator, JFV-PCH, but due to the pandemic that we are all facing with, the final meeting was held online via ZOOM platform.

During the meeting, partners had chance to discuss final steps to be taken in regards to the final report. They have summarised the period of the project implementation in the past 2 years, the results that were created in that period and all the dissemination and evaluation activities of the project.

Partners had the opportunity to recall common moments during the meetings held face to face in Ireland, Poland, Croatia and Czech Republic. Partners agreed that achieved project results have a great potential in all countries and intend to continue promoting them locally.

NEET-SYSTEM is a consortium of 9 partners representing: Croatia, Cyprus, Czech Republic, Finland, Germany, Ireland, Poland, Switzerland and United Kingdom
